

TERMAX 48 EC

CHLORPYRIFOS 48% EC

TERMITICIDE & INSECTICIDE

DESCRIPTION

TERMAX 48 EC is a powerful termiticide and insecticide containing Chlorpyrifos 48% EC. It is specially formulated to effectively control termites, carpenter ants, wood borers and a wide range of insects.

It provides long lasting protection to wooden structures and building foundations by creating a chemical barrier against termites and other destructive pests.

RECOMMENDED USES

- Pre & post construction treatment
- Termite control in buildings and foundations
- Protection of wooden structures and furniture
- Control of carpenter ants and wood borers
- Soil treatment for termite barrier
- Industrial, residential and commercial use

FEATURES & BENEFITS

- Kills termites, carpenter ants and wood borers
- Deep penetration for maximum protection
- Long lasting residual effect
- Pre construction and post construction use
- Suitable for all types of building structures
- Economical and easy to apply
- Highly effective and reliable

PROPERTIES

- Excellent termiticide action
- Fast knockdown and long residual control
- Non-staining and non-corrosive when used as directed
- Safe for use on most construction materials
- Effective in both dry and wet soil conditions

TECHNICAL PROPERTIES

Active Ingredient	Chlorpyrifos 48% w/v
Chemical Group	Organophosphate
Formulation	Emulsifiable Concentrate (EC)
Appearance	Clear to slightly amber liquid
Odour	Characteristic
Specific Gravity @ 25°C	1.18 – 1.22
pH (1% Solution)	5.0 – 7.0
Flammability	Non flammable
Solubility in Water	Emulsifiable
Shelf Life	2 Years in original sealed packing

APPLICATION

TERMAX 48 EC is used for the control of termites, carpenter ants and other wood destroying insects. It can be applied as pre construction treatment in soil as well as post construction treatment in and around structures.

MIXING & DOSAGE

Dilute **TERMAX 48 EC** with clean water as per the required application.

APPLICATION	DILUTION RATE	REMARKS
Pre Construction Soil Treatment	5 ml – 10 ml per Liter of Water	Uniformly apply on soil before concreting
Post Construction Barrier Treatment	10 ml – 15 ml per Liter of Water	Apply around foundation, walls and wooden areas

COVERAGE

Approx. 5 – 7 m² per Liter of diluted solution depending on the surface porosity and application method.

STORAGE

Store in original unopened container in a cool, dry place protected from direct sunlight. Keep away from food, feed and other consumables.

SHELF LIFE

2 Years from the date of manufacture when stored in original sealed condition.

PACK SIZE

1 Liter

SAFETY PRECAUTIONS

- Wear protective gloves, mask and goggles.
- Avoid contact with skin and eyes.
- In case of contact, wash with plenty of water and seek medical advice.
- Do not inhale vapors.
- Keep out of reach of children.
- Do not eat, drink or smoke during application.
- Store in a locked area.

IMPORTANT NOTE

For best results, application should be carried out by trained personnel. The company is not responsible for any loss or damage caused by improper use or storage.
